Strike Statement Issued By Publisher of Journal

Mr. W. A. MacDonald, publisher of the Edmonton Journal, makes the following announcement: The Journal printers failed to report for work on Thursday night and Friday morning. The strike thus commenced, without notification to the management, apparently to be a sympathy strike designed to aid Winnipeg printers who struck work on the Winnipeg Free Press and the Winnipeg Tribune last November.

THE JOURNAL has no dispute with its printers. Relations with the union have been cordial for many years. Contracts with the union were renewed only last November, and the strike now begun is in complete violation of the terms of those contracts.

Anglican-United Union Is Mooted

TORONTO, May 31.—(CP)—The question of union between the Church of England in Canada and the United Church has progressed to the point where it is now presented to the Dominion meetings of both churches next September. It was reported last week by representatives of the two churches that the union is being discussed.

UNION WAS DISCUSSED here last week by representatives of the two churches. The union is being discussed by representatives of the two churches. The union is being discussed by representatives of the two churches.

Talk of union has cropped up for several years. It was first mentioned in 1925, when the two churches were in the process of merging.

The last great union of Protestant denominations in Canada was the formation of the United Church in 1925, consisting of the Methodist, Congregational and Presbyterian Churches.

Hard Coal Miners Strike in States

NEW YORK, May 31.—(AP)—Pennsylvania's 75,000 hard coal miners struck today at 12:01 a.m. The union and operator negotiators failed to agree on a new contract, shutting down the state's anthracite fields.

AN AFL UNITED Mine Workers representative at the Lehigh Valley Coal Company in Hazleton, Pa., said that reports from the hard coal districts showed that "the whole region is idle."

"There are no colliers in the anthracite fields working," said Jack Reno, chairman of the grievance committee of the Lehigh Valley Coal Company.

Meanwhile a high government official said that the coal strike could not be quoted directly said President Truman had been counseled by his advisers against settling the mines.

THE OFFICIAL said the advice was based on the hope that the anthracite industry would shortly agree to terms similar to those in the government contract which ended the soft coal shutdown.

Eight-Storey Fall Kills City Woman

VANCOUVER, May 31.—(AP)—Mrs. H. R. Plummer, 44, wife of a Vancouver manager of Canadian Collieries at Nanaimo, B.C., was instantly killed last night when she fell from the window of her eighth floor suite of a Vancouver hotel.

Police said last night that Plummer told police he was in the suite at the time but in another room. He said he saw her fall from the lobby after buying a magazine. He heard her enter the suite but a few minutes later when he called to her he received no answer.

60-Year Romance to End in Marriage

MOUNT PLEASANT, Ont., May 31.—(CP)—Romance which started 60 years ago when Bill Atkin carried Florence Wallis to his home in Lincoln, England, has led to marriage plans for the two, who have not been seen since 1907. Atkin, now 68, is on his way to Lincoln to marry his childhood sweetheart.

The three-year exchange of letters which began when his son Brant, a Canadian soldier, died in Lincoln, was the last contact between the two.

Mr. Atkin, and their romance was rekindled.

Transport Sailing Given Long Delay

OTTAWA, May 31.—(CP)—The sailing of the transport le de France, originally scheduled to dock at Halifax June 9 with 8,000 Canadian servicemen and 100 dependents, has been delayed until June 21, because of engine trouble, officials said yesterday. Some 8,000 of the servicemen will be transferred to the Aquitania, which is at Halifax about June 8, and 1,000 dependents who were to have sailed on the Aquitania and the remaining 3,000 servicemen would be accommodated as soon as possible, officials said.

Ask Appeal Body For Tax Disputes

OTTAWA, May 31.—(CP)—The Senate yesterday called for appointment of an independent board to hear appeals from taxpayers who are dissatisfied with the decision of the Tax Appeal Board.

Senator McGee, who began after hearing a Nova Scotia taxpayer's appeal, said he felt his fellow Nova Scotia, Finance Minister, had been misled.

The upper chamber approved the report of a special committee to enable its recommendation for such a board to be placed before the government in final consideration of its approaching budget.

The committee's members are Senators J. J. Kinley (L-Nova Scotia) and G. G. McGeer (L-British Columbia).

SAID THE FORMER: "I haven't much faith in such a board doing much for the common man. . . . It would be a waste of money."

Senator McGee contended the decision of the appeal board should be final rather than, as proposed, the first step in litigation which could reach the Privy Council. He was heartily in accord with the general recommendation that it "would have more power if it weren't rushed through too hurriedly."

If the board was one of final appeal, it would constitute a final, final and final.

Say Stettinius Is Retiring From UN

WASHINGTON, May 31.—(AP)—Government officials who would not permit use of their names last night reported that Stettinius, U.S. representative on the United Nations Security Council, has resigned.

The White House and Mr. Stettinius declined comment. Mr. Stettinius said they were not fully acquainted with the reasons for his resignation.

Stettinius' resignation was reported by the United Nations Security Council. The 45-year-old Stettinius is the only representative of the United States on the Security Council.

U.S. Coal Price Expected to Rise

WASHINGTON, May 31.—(AP)—Government officials predicted last night that the strike gains of John L. Lewis miners will hike the price of soft coal 30 to 35 cents a ton for consumers.

Mine owners indicated they would wait for the strike to end before making a new try for a contract with the miners.

No Solution Near In Seamen Strike

By The Canadian Press
The lake shipping strike was no nearer solution today—government efforts to achieve a settlement apparently had reached a deadlock—

and flare-ups along the docks of the great inland seas were multiplying.

The telegram said these instructions were issued because "Canada Steamship Lines, Limited, has issued public statements in contradiction to the requests of Labor Minister Humphrey Mitchell."

Mr. Mitchell announced in the House of Commons that the union had agreed its members still on ships would continue operating but that the union would not accept a new contract.

Edmonton, Ottawa, Hamilton Plants Affected by Walkout

OTTAWA, May 31.—Composing room employees of the Ottawa Citizen, Hamilton Spectator and the Edmonton Journal, all members of the Southern Canada Typographical Union, went on strike Thursday night.

The Citizen, which publishes both morning and afternoon papers, did not issue a morning edition today. Publication would be resumed as soon as possible, with the assistance of the union, officials said.

A STATEMENT issued by H. S. Southam, publisher of the Citizen, said the strike was in sympathy with the Winnipeg members of the union and was not called because of anything the Citizen has neglected or declined to do in fulfillment of its contractual obligations.

Printers' Unions and other composing room employees who were on strike were numbered by the company at 45 to 50. The terms of a new contract, printers at the Winnipeg Free Press went out at the same time and both papers subsequently hired new composing room staffs.

Britain Prepares To Ration Bread

LONDON, May 31.—(CP)—Herbert Morrison, Lord President of the Commons, told the House of Commons today that the government was preparing a system of bread rationing for emergency use. He compared the world food situation to the black days of Dunkerque "when all the news was bad."

THE VERY SERIOUSNESS of the situation, he said, was the reason for the government's decision to prepare a system of bread rationing for emergency use.

Failure of Ottawa Parley Delays Farm Act Amendments

remained apart and are known as Continuing Presbyterians.

HIGH-RANKING CLERGY and prominent laymen of both the Anglican and United churches took part in the Toronto deliberations. One United Church clergyman declared that theological differences were not insurmountable, because both churches had the same creed and the same general beliefs.

This minister saw only two barriers to union. The first is confirmation, Anglicans insisting their members be confirmed by a bishop while the United Church presbyters admit applicants into the church after holding membership classes. The second barrier is the Anglican claim—shared with the Roman Catholic Church—of the right of apostolic succession, which the United Church makes no such claim and it was pointed out that in the past a number of Anglican ministers have been unwilling to accept United Church ordination for this reason.

No public announcement of progress of the talks will be made by the Anglican or United Church heads until a joint report has been prepared and approved. Leaders of the United Church, including Archbishop Dwyer T. Owen, primate of all Canada, have been kept informed of the developments.

B.C. Strike

(Continued from Page 1)

Company which was signed only Wednesday.

The mill was closed down early yesterday because of the dispute over classification of the logs. Striking IWA representatives sat in at yesterday's meeting, but the press and public were barred.

Thursday AFL officials asked the loggers' pickets to move from the mill pond containing logs regarded as "fair" by the AFL, and described as hot by strikers, but met with refusal.

MEANWHILE Premier John Hart at Vancouver expressed confidence that efforts of Chief Justice Sloan to negotiate a settlement between the IWA and employers would succeed.

Chief Justice Sloan, hoping to end the 16-day-old strike, heard oral arguments from employer and union representatives yesterday. He announced that his recommendations would be handed to both sides 10 a.m. Saturday and added that he would not wait him of acceptance or rejection before 5 p.m. Monday.

It was considered likely that the chief justice's recommendations, if rejected, might still provide a basis for both sides to continue negotiations.

Should the recommendations be rejected, the commissioner will report to federal labor officials.

Harold Pritchett, district president of the IWA, telephoned his Vancouver office that he had left the Sloan hearings in Victoria and would not return. He said that he regarded the sessions as "fruitless", but that another union representative would probably take his place.

OTHER DEVELOPMENTS yesterday were:

1. The provincial cabinet will discuss at a meeting Friday all aspects of the strike. Possibly the main topic of discussion will be a letter from the British Columbia branch of the Canadian Manufacturers' Association claiming that "present deplorable conditions in the province" are the result of "a planned communist attempt to control and disrupt industrial life on this continent."

2. Premier John Hart said the provincial government will take some action if present Sloan negotiations fail.

3. At Vancouver Harold S. Foley, president of the Powell River Company, issued a statement saying:

Bread Rationing

(Continued from Page 1)

Morrison's recent food mission to Washington.

At the time, Michael McDermott, special assistant to State Secretary Byrnes of the United States, declared the United States had accepted specific responsibility for feeding India and the British Zone of Germany.

"I am very glad that the matter has been agreeably cleared up," Mr. Churchill said.

MR. CHURCHILL commented on Sir Ben Smith's absence from the chamber, claiming it was usual in peacetime for a resigning minister to make a statement to parliament. Sir Ben was succeeded by John Strachey.

"I ask him (Mr. Morrison) pointedly: Did the minister go on a difference of policy, and if so what was that difference, or was he removed because he was not thought equal to this particular task?" Mr. Churchill asked.

Mr. Churchill blamed the food shortage in British zone of Germany in part on establishment of the Russian zone demarcation line on the western Neisse river. The great feeding grounds which nourished Germany as a whole lay to the east of the iron curtain, he declared.

FAMINE CONDITIONS in India and the British occupation zone of Germany, Mr. Churchill declared, showed an extraordinary lack of foresight on the part of the administration and conditions in the British zone of Germany should have been foreseen.

PRODUCTION SET BACK
WASHINGTON, May 31.—(AP)—John D. Small, civilian production administrator, said last night the soft coal strike and other work stoppages in the United States had cut the output of automobiles and other consumer goods by at least three months.

set for Monday, at which "definite proposals" would be advanced for settlement of the dispute.

(In Montreal last night a representative of the inland vessel operators involved in the strike said it was the unanimous opinion of the shipowners that "no useful purpose could be served by meeting the great officers of the union" at such a conference.)

The CSU which called the strike last Sunday for an eight-hour day had succeeded in blocking the vital Welland canal. The Cornwall canal was also tied up. Three more ships were added to the struck list yesterday; the union claimed the total strike-bound was nearing 100 vessels.

DESPITE STATEMENTS of various owners' representatives last night, flatly rejecting the true formula, it appeared that a formal decision would not be made until at least after conferences in Toronto today between various operators and Senator G. P. Campbell, counsel of the Dominion Marine Association. Senator Campbell arrived in Toronto today from Ottawa.

There was violent activity in the strike yesterday at the Welland canal and at Cornwall. About 150 union pickets boarded the Canada Steamship Lines' freighter Goderich, in Lock 8 of the Welland canal, threw overboard the belongings of the non-union crew and the crew followed them. Then the pickets tied the vessel to the lock walls and she swung there all night, effectively blocking all passage.

AT CORNWALL more pickets were kept behind RCMP lines by officers welding riding crops, and the pickets showered the police with stones and mud.

Why Grow Old?

By Josephine Lowman
Q. "WILL COLD CREAM make hair grow on the face?"

A. I can safely say, "no". This seems to be a question of glands.

BLACKHEADS
Get two ounces of peroxide powder from your druggist. Sprinkle on a hot, wet cloth and apply to the face gently. Every blackhead will be dissolved. The one safe, sure and simple way to remove blackheads.

far setup on which cream has no bearing.
Q. "I am 18 and my two best points are my hair and my teeth. My worst one is my eyes. Would you please give me some pointers on how I can play up my good points and draw attention away from my eyes?"

A. Your hair, **JOSEPHINE LOWMAN** will show itself off if you treat it to good care and keep it shining with plenty of brushing and adequate shampooing. Then, too, find a hair style which is becoming. Plenty of brushing and lots of smiles will highlight your teeth. Rather than try to draw attention from your eyes why not improve them? Did you know that some of the most glamorous stars of the screen have had small unattractive eyes but make your eyes look larger by drawing a fine line below the lashes on the lower lid. Rub with your finger until it becomes only a slight shadow. Apply mascara to the upper lashes. Put rouge as close to small eyes as compatible with the shape of your face. A strong eyebrow gives the eye size. If your brows are light use an eye-

brow pencil with little feathery strokes.

Q. "CAN PROTRUDING ears be trained to remain snug to the head? Are there any caps made that can be worn at night and would effectively benefit this condition? A 12-year-old girl wants to know and her mother wants to help her."

A. So far as I know there are no caps made for this purpose. You might tie a soft ribbon or band about your head before retiring or for daytime wear. In time this will help.

Q. "Will you please answer this in your column. Is there any danger of scarring or burning in having hair removed from the face?"

A. No, not if you go to a competent person. Just be sure of your operator and you have nothing to fear.

Q. "Will vitamins make one gain weight?"

A. Vitamins do not have calories and affect weight only in that they improve health and appetite.
Q. "I DO NOT NEED a thing about figure. My figure bears Earl Carroll's idea of beauty in suiting me, but I want to get some forehead and lip wrinkles off. I am old but not old."

A. Congratulations on the figure! Do you have the habit of lifting your eyebrows when talking? This is usually the main cause of forehead wrinkles. If so, break yourself of this habit. At night massage cream along the lines with your fingers, using a rotary motion. Afterwards, remove the cream and smooth out the lines and paste plaster on the lines. Leave overnight. For lip wrinkles I suggest facial exercises. This will be beneficial. Fill the cheeks with air. Hold your breath while you submerge your face in a bowl of water and tap gently all over the face with your fingertips. Come up for air. Fill the cheeks and repeat.

By William E. McKenney
Milton Jones of New York has become quite an enthusiastic tournament player. I saw him play an interesting hand at the Vanderbilt Cup Tournament.
Jones (south) refused to win the first heart trick, and when West continued with the four of hearts, he won with the ace. He correctly read that West held a five-card suit.

Next he played a small club and West showed out, indicating that he could have four diamonds and four spades. Jones cashed the ace of diamonds and two more rounds of clubs. West letting go two diamonds and a spade. The ace and king of spades were cashed, dropping West's queen and jack. Now Jones led a heart, throwing West in the lead. All West could do was to cash his three heart tricks, then he had to come out with a diamond, giving Jones his ninth trick.

Footscap Is Ample For School Exams

The hopes of some Edmonton youngsters that the current shortage of paper would result in cancellation of the annual school "final" examinations this year were squelched Thursday by Dr. W. H. Swift, provincial supervisor of schools.

DR. SWIFT SAID there were ample supplies of footscap for the "exams" and he expected no difficulty in providing all students with their requirements. "The amount of paper in relation to the general supply is small," he stated.

Also, Alberta's students had better keep up with their studies. There just isn't any hope of escaping the examinations.

Extra vigilance is advisable after dark, and if you are walking across the street remember that you can see a car far better than the car driver can see you. Cross at intersections only, and make sure that you have plenty of time.

ROAD REPORTS

All roads in Alberta are reported muddy with the exception of those from Peace River north to Fort St. John, where the surface has dried and is in good shape.

New Gas Rate Schedule Said Lowest on Whole Continent

Edmontonians who use gas will be saved an estimated \$250,280.14 if the proposed new rates submitted by North-western Utilities Ltd. are acceptable to city council.

THE CITY COMMISSIONERS. In a report to the special meeting of council to be held Friday afternoon at 4:30 o'clock, are recommending acceptance. It is stated in the communication from the company that the proposed rates for "domestic and smaller commercial users will be the lowest on this continent, and possibly the lowest in the world."

The new domestic rate, which will become effective on readings made on or after June 26 next, call for payment of \$2 for the first 4,000 cubic feet or less, and 20 cents per 1,000 cubic feet for excess consumption. It is stipulated that if accounts are not paid on or before the due date the charge per thousand cubic feet, other than the first 4,000, shall be increased by two cents.

Commercial and industrial rates for customers whose annual consumption exceeds 15,000 m.c.f., but does not exceed 34,000 m.c.f., called for payment of \$4.35 per month, fixed charge, and a commodity charge of 17 cents per thousand cubic feet. Those whose annual consumption exceeds 34,000 m.c.f. will pay a \$120 monthly fixed charge, and a commodity charge of 14 cents per thousand cubic feet. The same provision for an increase of two cents per thousand cubic feet is provided when bills are not paid on due date.

THE HIGH LOAD factor rate available to consumers on annual contract whose annual consumption of gas is not less than 6,000,000 cubic feet, and whose total consumption during the six months reading periods ending May, June, July, August, September, and October is not less than 40 per cent of their total consumption for the year will be charged a fixed rate of \$1.00 per 1,000 cubic feet of maximum 12-hour demand. The commodity charge will be 14 cents for the first 1,000,000 cubic feet, 12 cents for the next 1,000,000 and 10 cents for all additional.

The new rates are conditional on the city agreeing that the contract will be in effect until after the company's revenue, operating expenses, etc., are available for the new rates all city premises and buildings are to be billed on the individual meter readings and not grouped as at present.

Deny Veterans Fussy About Jobs

Denials to the statement which appeared in an Edmonton newspaper Wednesday which quoted Joe McKenzie, field officer for Canadian Vocational Training, as having the report of the high school section of the committee, which was presented by D. M. Sullivan, Edmonton high school inspector.

Mr. Thompson reports, "To say that veterans are 'fussy' about jobs and to use that term in a slurring manner is incorrect. There is no reason why these veterans, if they want to be tradesmen should not be given every opportunity to learn a trade and become skilled in the trade of their choosing."
